The Conferences

 #MathsConf

The Complete Maths Conferences, better known as #MathsConfs are Saturday conferences full of CPD workshops and networking for teachers of Maths from primary, secondary and FE.

Since the first conference in 2014, we have welcomed over 3000 delegates through the doors, the vast majority of whom are currently working in schools – the perfect people to make the most of your products and services.

Conferences run each term in England, as well as an annual conference in Scotland.

Who Attends?

350 Attendees on average

99% Currently Teaching

85% Secondary

15% Primary

74% Decision Makers

Based on MathsConf5 stats

The Exhibition

 #MathsConf

Central Space

We always place the exhibition area in the centre of the venue, with catering nearby to ensure that delegates are never far away

Contact Time

160 minutes of breaks are scheduled throughout the day, so you have plenty of time to speak to delegates

The Treasure Hunt

To draw even more delegates to your stand, every exhibitor is given a maths problem – delegates must find and solve each maths problem to be entered in to a prize draw

Speed Dating

You are welcome to join the 'speed dating' session at the start of the day, giving you the opportunity to share about your product or services with a variety of delegates in 90 second slots
